

ABOUT US

Since 1971, GP Reeves dispensing systems have helped thousands of companies improve their products. We do this by accurately measuring and dependably depositing precise amounts of oil, grease, and other assembly fluids.

Our customers are involved in almost every manufacturing industry including rubber, plastics, appliances, auto, electronics, aerospace, medical and oil exploration.

A few of our customers are shown below:

- General Motors
- Grupo Antolin
- Magna
- Moen
- John Deere
- thyssenkrupp
- Caterpillar
- Stryker
- Nexteer Automotive
- Ford
- Federal Mogul
- Honda
- Kohler
- Fiat Chrysler Automobiles

Our patented air removal system finds and removes trapped air from grease for increased product quality and production. We find and remove air before grease is dispensed.

Our specialty is applying grease, oil, and a variety of sealants and adhesives to parts during production. Our dispensing equipment is accurate, repeatable, reliable and fast.

Some examples of products we have developed solutions for:

- Drive Line
- Power Window Regulators
- Sunroof Rails
- Seat Recliner
- HVAC Cam
- Liftgate Drive
- Electrical Connector Cavities
- Electrical Connector Pins
- Headrest Assembly
- Electronic Board
- Surgical Bed
- Brake Backplate
- Garage Door Opener Drive
